Heredity: Human Genetics Problem Interpreting a Pedigree Chart

A human geneticist determined the pedigree shown in the diagram with filled symbols showing the affected individuals. How is this pattern of inheritance described?

Generations

Choose one of the following to describe the pattern of inheritance. A tutorial to help you is posted on the *hereditary* page of the BHS Biology website.

- A. Autosomal dominant
- B. Autosomal recessive
- C. Sex-linked recessive
- D. Sex-linked dominant
- E. None of these
